Update to a Report of a Small Electrical Fire at an Exchange Licensed Cocoa Warehouse

On April 8, 2014, ICE Futures U.S. issued a notice that the Exchange licensed cocoa warehouse operated by Dependable Distribution, at 2121 Wheatsleaf Lane in Philadelphia, PA, experienced a small electrical fire. The warehouse was subsequently inspected and found to have sustained only minor non-structural damage which did not effect the non-certified Cocoa stored in the warehouse that was flagged by the Exchange. As a result, the Exchange has lifted the flag and such cocoa is once again eligible for grading.
