- (iv) the formal rules of evidence shall not apply;

- (viii) Any party to the dispute may apply to the panel for permission to join as a party any other Member (1) who is, or may be, liable to such party for all or part of the Claim being asserted against him or (2) who claims an interest in the subject of the dispute. If the panel determines that the Claim is valid, the panel shall award to the receiving Clearing Member one hundred fifty dollars (\$150) for each contract covered by the notice of delivery plus the amount of any losses proven to have been incurred by the receiving Clearing Member. The award shall be made to the receiving Clearing Member by the delivering Clearing Member. (1) “Daily Tank Deliveries” – The term “Daily Tank Deliveries” shall mean the loadout of FCOJ onto tankers in the appropriate volume during regular business hours on any Business Day.

(2) “Tank facility” – The term “tank facility” shall mean a tank facility which has the capacity and equipment for the storage and delivery of FCOJ in a manner and under conditions acceptable to the United States Department of Agriculture (“USDA”) and the demonstrated ability to make Daily Tank Deliveries equivalent to a least eight (8) FCOJ Futures Contracts.

(3) “Tank facility operator” – The term “tank facility operator” shall mean a Person who operates a tank facility.

(4) “Tank facility owner” – The term “tank facility owner” shall mean a Person who owns a tank facility.

(2) The physical property of the tank facility shall be subject to examination by the Exchange.

(3) The physical property of the tank facility shall be properly safeguarded and protected or equipped with alarm service.

(4) The tank facility operator shall maintain in all tank storage areas where Exchange FCOJ is kept a constant temperature of not more than 30° Fahrenheit; provided, however, that tank deliveries, in accordance with EWRs, shall be made at a maximum of 20° Fahrenheit.

(III) USDA Inspection

(1) The tank facility shall be equipped to handle FCOJ under continuous inspection of the USDA, or Quality Assurance Program inspection of the USDA, or Florida Quality Systems Certification Program inspection. Each FCOJ facility shall provide an on-site laboratory that is accepted by the USDA for purposes of USDA performance of grading and testing of product under subparagraph (III)(3) of this Resolution. Inspections will be provided without any undue delay.

(2) In the conduct of inspection, the USDA may conduct such tests, as they deem necessary, to provide assurance that the FCOJ meets the requirements set forth in Rule 13.02 for FCOJ-A, including any origin requirements.

(3) At the time of the physical delivery of FCOJ upon surrender of an EWR, the tank facility operator shall cause samples to be made available to USDA Inspectors from the FCOJ to be delivered so that the USDA Inspectors may issue a Certificate of Quality and Condition. Said USDA Certificate shall be provided on the spot to the tank facility and the Receiver.

(A) Remedies

In the event that any FCOJ delivered pursuant to an EWR fails to pass a grade review, the Clearing Member which took delivery (“Receiver”) shall have the following remedies against the tank facility which issued the EWR:

(i) Surrender of the FCOJ which failed the grade review and replacement by FCOJ which meets a grade review, and the tank facility shall pay all costs associated with such surrender and replacement; or

(ii) In lieu of replacement, the Receiver may demand payment to the Member Firm of the actual damages suffered by the Member Firm.

(B) Penalties

In addition to the remedies set forth in subparagraphs (III)(3)(A)(i) or (ii) of this Resolution, the tank facility operator shall pay to the Receiver a penalty for any contract which fails grade review. The penalty shall be based upon schedules as shall from time to time be published by the Exchange. The Exchange has established and published a penalty of fifteen cents (15¢) per pound.

(C) Replacement Procedure

In the event that a Receiver chooses to demand replacement under this Resolution, the Receiver must issue written demand to the tank facility with a copy to the Exchange, within seven (7) Business Days from the date on which the Exchange informed the Receiver of that right.

A tank facility which is served with a demand for replacement must within the next seven (7) Business Days from such service:

(i) arrange a date and time satisfactory to the Receiver for replacement delivery; or

(ii) report to the Exchange that despite good faith efforts of the facility, the Receiver refuses to co-operate in setting a time and date for replacement delivery.

(D) Alternate Settlement

In lieu of the remedies and penalties set forth in subparagraphs (III)(3)(A)(i) and (ii) of this Resolution, the Receiver may accept such settlement from the tank facility as the parties may agree.

(E) Questions

All questions with respect to the proper remedy and obligations of the parties described in subparagraphs (III)(3)(A)(i) and (ii) above shall be referred to the FCOJ Delivery Committee.

(F) Encumbered FCOJ

The USDA Inspectors shall not furnish inspection certificates with respect to any FCOJ which is encumbered.

(4) USDA inspectors will be permitted full access to select their own sample units of product represented by EWRs issued by the tank facility operator.

(5) Additionally, the USDA shall provide assurance to the Exchange that uniformity of grading is being conducted in all tank facilities. The Exchange will request that USDA conduct grade reviews to provide such assurance in a manner substantially similar to the following procedures:

(A) Grade reviews will be performed in the USDA, Agricultural Marketing Service, Fruit and Vegetable Division, Processed Products Branch area field office in Winter Haven, Florida.

(B) All product delivered will be reviewed unless otherwise specified by the Board.

(C) Sample units of product will be submitted to the review office in such a manner that origin and facility are not known to the review office.

(6) The correlation between grade reviews and the results recorded for earlier inspections and samplings at a tank facility shall at all times be satisfactory to the Exchange.

(7) The facility operator shall be bound by the results of the grade reviews performed by the USDA as described in subparagraph (III)(5) of this Resolution. A non-operating owner, as set forth in paragraph (X) of this Resolution shall be bound as well.

(8) All charges imposed by the USDA for inspections and grade reviews shall be paid by the tank facility operator or owner.

(9) Members and Member Firms shall also be bound by the results of such grade reviews.

(1) Tariffs charged by a tank facility operator shall be satisfactory to the Exchange.

(2) The tank facility operator shall submit to the Exchange its tariff listing in detail its charges for storage, handling, authorized interest and insurance premiums, where applicable, and other charges payable to it ("Storage Charges") at the time it applies for a license from the Exchange which tariff shall be published and not increased without sixty (60) days written prior notice to the Exchange effective for the following calendar quarter; provided, however, that Storage Charges shall be calculated at a minimum Brix value of not less than 62.5 degrees.

(A) Storage Charges filed and effective under this Resolution are due and payable in advance on the first (1st) day of the month and, if not paid by 2:00 p.m. on the last Business Day of the month, are subject to authorized interest for the entire month.

(B) Authorized interest, if filed and effective under the Resolution, shall mean interest up to the maximum rate of interest allowed by applicable law. The charging of such interest by a licensed tank facility is a representation by it that such charge and such rate do not violate applicable law.

(3) For purposes of this Resolution, the sixty (60) day period shall be deemed to begin on the date that the Exchange receives the written tariff increase request.

(4) Thereafter, the Exchange shall cause the written tariff increase request to be posted on the Exchange Website.

(5) Any such tariff increase request shall be considered by the Exchange during the sixty (60) day period.

(6) All such written tariff increase requests shall become effective for the following calendar quarter from and after the sixtieth (60th) day after receipt unless:

(A) such request has been considered by the Exchange during that period in the manner set forth in subparagraph (V)(5) of this Resolution; and

(B) The Exchange finds such tariff increase unsatisfactory.

In the latter event, notice of the determination that a proposed tariff increase is unsatisfactory shall be given to the Person who requested the tariff increase and posted on the Exchange's Website.

(7) The tank facility operator shall not charge discriminatory rates for any of its services in storing or handling FCOJ nor give any rebate of its charges for services.

(1) When an EWR has been registered and assigned a number by eCOPS, said EWR shall be considered to be "outstanding" until its registration is cancelled by the tank facility which issued the EWR. Commodity Operations shall maintain a current record of the number of EWRs outstanding and shall post this record on the Exchange's web site.

(2) In the event of a cancellation of an EWR the following procedures must be adhered to:

(A) when the tank facility pumps out Exchange FCOJ in satisfaction of an EWR, the EWRs must be cancelled by the tank facility on eCOPS;

(B) when a tank facility regains control of an outstanding EWR issued by it, for its own proprietary account, such EWRs may be cancelled by the tank facility on eCOPS.

(VII) Delivery Obligations of Licensed Tank Facility Issuing An EWR

(1) An EWR issued by a tank facility must be issued a Certificate of Registration, as defined in Rule 13.13(a)(1) in order to be eligible for delivery.

(2) A tank facility is obligated to keep the storage fees current on all EWRs said tank facility issues.

(3) A tank facility shall deliver to the holder of an EWR either fifteen thousand (15,000) lbs. solids (plus or minus 3%) of FCOJ, as specified in the EWR issued by the tank facility, at the unloading platform of said tank facility meeting the specifications for deliverable FCOJ under the Rules upon the surrender of the EWR by the holder and the payment only of all unpaid storage charges due to the tank facility for periods subsequent to the date of the issuance of the EWR and of such load-out charges which have not been previously paid to the tank facility.

(A) The tank facility shall deliver for shipment the FCOJ specified in the EWR commencing no later than ten (10) calendar days ("Day 10") and ending no later than thirty (30) Business Days ("Day 30") after the date of demand by the holder. All requests for delivery made by a single holder or a nominee of that holder within a five (5) day continuous period may be declared to be a batch and will be subject to the same date of demand. For purposes of this Resolution, the term "Date of Demand" means the date on which the tank facility receives the EWR, or in the case of the batch being declared by the tank facility, the term "Date of Demand" will refer to the first date of receipt of the EWR in such declared batch, and the term "Multiple Demand" means demands by the same Person for delivery on two (2) or more EWRs with identical Dates of Demand.

(i) All other Rules that govern the times of delivery may be suspended if a tank facility requests the FCOJ Delivery Committee to determine if an inappropriate number of requests for delivery during any given period of physical deliveries have been received.

(ii) The tank facility will immediately contact the Exchange. The information regarding delivery requests will be promptly relayed to the FCOJ Delivery Committee. The

Committee or a Panel of the Committee appointed by the Chairman of the FCOJ Delivery Committee will decide if an inappropriate number of requests have been made. If they so decide they will set up a schedule of deliveries that will permit all deliveries to occur during a period not to exceed thirty (30) Business Days from the Date of Demand.

(B) In making deliveries within the time period set forth in the EWR, the tank facility shall use its best efforts to make prompt deliveries in an orderly manner, including, but not limited to, the making of weekly pro-rata deliveries, beginning during the week within which Day 10 falls, to satisfy Multiple Demands outstanding.

(C) In the event that the tank facility is unable to make available FCOJ specified in the EWR before the end of Day 10 then the tank facility shall pay as penalty to the holder one hundred fifty dollars (\$150) a day for each Business Day after Day 10 that the tank facility is unable to fulfill the EWR;

(D) The holder and the tank facility shall use their best efforts to coordinate dates and times within which the FCOJ specified in the EWR will be made available and picked up.

(E) In the event that the tank facility is unable to make available FCOJ specified in the EWR before the end of Day 30, then:

(i) the tank facility shall pay as a penalty to the holder one hundred fifty dollars (\$150) a day for each Business Day after Day 30 that the tank facility fails to fulfill the EWR; and

(ii) storage charges incurred through Day 30 remain in effect; however, storage charges arising after Day 30 shall be waived; provided, however, that if the holder does not adhere to the schedule called for in subparagraph (b)(iv) of this Resolution, then the above penalty shall not apply and a new Day 10 and/or Day 30 may be commenced on any EWR(s) upon which the schedule was violated.

(F) In the event that a holder of an EWR presents the EWR to a tank facility for the purpose of taking delivery of FCOJ in accordance with Exchange Rules, and the holder, prior to delivery, cancels the request for delivery and requests that the tank facility reissue the EWR, the tank facility must reissue the EWR as long as the request is made at least forty-eight (48) hours prior to delivery and may charge an administrative fee no greater than one hundred fifty dollars (\$150) for each EWR reissued.

(4) The tank facility shall deliver for shipment the FCOJ specified in the EWR at a maximum temperature of 20 degrees Fahrenheit.

(5) In the event of a failure of the holder of the EWR to pay storage for three (3) months, the tank facility may reserve the right to sell or dispose of the FCOJ specified in the EWR and claim a lien against the FCOJ specified in the EWR or against the Person entitled under the EWR or on the proceeds thereof in his possession for charges for storage, transportation, loading, handling (including the demurrage and terminal charges), labor and other charges present or future in relation to the goods and for expenses necessary for the preservation of the goods or reasonably incurred in their sale pursuant to law.

(6)(A) The EWR may not be tendered in satisfaction of an Exchange contract under the Rules unless the EWR has been registered and assigned a number by eCOPS.

(B) The Rules limit the number of EWRs that the Exchange is obligated to register.

(C) The EWR may only be cancelled in accordance with eCOPS procedures.

(VIII) Delivery

Upon the payment or tender of the storage and other charges due to the tank facility on the FCOJ covered by an EWR and the surrender of the EWR, the tank facility operator shall

promptly make available to the holder of the EWR at the unloading platform or exit door of the tank facility all FCOJ covered by the EWR.

(IX) Financial Condition

The tank facility operator shall furnish to the Exchange its financial statement as of the end of its last fiscal period certified by an independent public accountant and, further, shall furnish to the Exchange within four (4) months after the end of each subsequent fiscal period a similar certified financial statement. The tank facility operator shall also furnish to the Exchange within thirty (30) days after request therefore such additional financial information as the Exchange may request from time to time.

(X) Liability for Performance

To the extent that the tank facility operator licensed by the Exchange is a Person other than the owner of the tank facility, the Exchange and parties claiming under the Rules shall look first (1st) to the tank facility operator to perform his duties under the Rules. In the event the tank facility operator fails to perform those duties, then the owner of the tank facility shall assume responsibility for assuring that such duties are performed.

3. The following records relating to Exchange FCOJ shall be kept and maintained by the tank facility operator for at least the indicated periods of time after the FCOJ has been removed from the tank facility, or otherwise no longer identified as Exchange FCOJ:

<i>Category of Document</i>	<i>Time Period</i>
Delivery Orders	1 year
Receiving Reports	2 years
Stock Record Cards	2 years
Electronic Warehouse Receipts	2 years
Storage Report.....	2 years

(XII) Inconsistent Provisions

If any agreement between a tank facility operator and the owner of Exchange FCOJ or if any provisions of any EWR is inconsistent with the provisions of the Rules, the provision of the Rules shall control.

(XIII) Violations

Violations of the standards and procedures set forth in this Resolution shall not be grounds for a Receiver to reject a delivery or to hold a Deliverer in default, provided, however, that nothing in this Resolution shall alter or abridge the rights of a Receiver under any other provision of the Rules to reject a delivery or to hold a Deliverer in default.
