

## Heating Oil Diff - EU-Style Heating Oil vs Low Sulphur Gasoil Options

### Contract Specifications

Description	A monthly cash settled option based on the difference between the ICE daily settlement price for Heating Oil Futures and the ICE daily settlement price for ICE Low Sulphur Gasoil Bullet Futures
Commodity Code	EHL
Contract Size	1,000 barrels (42,000 gallons)
Unit of Trading	Any multiple of 1,000 barrels
Currency	US Dollars and cents
Trading Price Quotation	One cent (\$0.01) per gallon
Settlement Price Quotation	One hundredth of one cent (\$0.0001) per gallon
Minimum Price Fluctuation	One hundredth of one cent (\$0.0001) per gallon
Last Trading Day	Trading shall end one business day prior to the Expiration Date of the ICE Heating Oil Futures contract
Option Style	Options are European-style and will be automatically exercised on the expiry day if they are "in-the-money". The Future resulting from exercise immediately goes to cash settlement relieving market participants of the need to concern themselves with liquidation or exercise issues. If an option is "out-of-the-money" it will expire automatically. It is not permitted to exercise the option on any other day or in any other circumstances than the Last Trading Day. No manual exercise is permitted

# Contract Specifications

Option Premium / Daily Margin	<p>The EU-Style Heating Oil vs Low Sulphur Gasoil Option is a premium-paid-upfront option. The traded premium will therefore be debited by the Clearing House from the Buyer and credited to the Seller on the morning of the Business Day following the day of trade. Members who are long premium-paid-upfront options will receive a Net Liquidating Value (NLV) credit to the value of the premium which is then used to offset the initial margin requirement flowing from both these options and positions in other energy contracts. Members who are short premium-paid-upfront options will receive an NLV debit in addition to their initial margin requirement. NLV is calculated daily with reference to the settlement price of the option</p>
Expiry	<p>19:30 London Time (14:30 EST)</p> <p>Automatic exercise settings are pre-set to exercise contracts which are one minimum price fluctuation or more 'in the money' with reference to the relevant reference price. Members cannot override automatic exercise settings or manually enter exercise instructions for this contract.</p> <p>The reference price will be a price in USD and cents per gallon equal to the difference between the settlement prices as made public by ICE for the Heating Oil Futures contract and the ICE Low Sulphur Gasoil Bullet Futures contract on the Last Trading Day. When exercised against, the Clearing House, at its discretion, selects sellers against which to exercise on a pro-rata basis.</p> <p>conversion factor: 1 metric tonne = 312.9 gallons</p>
Strike Price Intervals	<p>A minimum of 10 strikes above and below at the money in \$0.01 increments will be listed at launch. This contract will support Custom Option Strikes with strikes in increments of \$0.001 within a range of -\$1.00 to \$1.00. These ranges may be revised from time to time according to future price movements. The at-the-money strike price is the closest interval nearest to the previous business day's settlement price of the underlying contract</p>
Contract Series	Up to 48 consecutive months
Final Payment Date	Two Clearing House Business Days following the Last Trading Day
Business Days	Publication days for ICE
