TRADE THE POWER OF THE BENCHMARK ON THE ICE SCREEN

For the first time, NYBOT's exclusive benchmark futures contracts including – Cocoa, Coffee "C"®, Cotton No. 2sm, Sugar No. 11sm, Sugar No. 14sm & FCOJ – will be offered in a side-by-side trading session. Additional NYBOT contracts will be added in the near future.

NYBOT on ICE is available through a variety of interface alternatives, including ICE's accessible Internet-based trading screen, known as WebICE, and through other proprietary front-end systems such as ICE's API, ISVs and brokerage firms.

The WebICE trading screen is globally distributed across the desktops of thousands of commodity market participants. Fast and reliable, the ICE electronic trading platform brings the markets to you, around the clock, each trading day.
