- E 1.3.8 If an Exchange official has reason to believe that a Grader has acted or is acting in breach of the Regulations or these GWP's, then the Exchange will inform the Senior Grader of the relevant Grading Panel or Appeal Panel and consult with him as to the course of action that should be taken.

 - (b) a Grader who is an employee of the Member, or a Related Company, submitting an application for grading or, if such Member is not the Owner of the Goods from which the sample was drawn, then the Owner of such Goods, or a Related Company, shall not form part of the Grading Panel or Appeal Panel undertaking the grading of such sample; and
 - (c) a Grader will not form part of an Appeal Panel if such Grader formed part of the Grading Panel that originally graded such sample.

- E 1.7.4 In all cases the original sample must be submitted with the Exchange's seal intact. Where such a seal is broken, an appeal will not be undertaken.
- E 1.7.5 Grading appeals shall be conducted on the sample, or for samples graded as grouped lots a portion of sample material, originally submitted for grading.
- E 1.7.6 If the Appeal Panel decide that the original decision of the Grading Panel should be changed, the previous grading result will cease to be valid. The Exchange shall notify the applicant Member of the appeal grading result by such means and in a form prescribed by the Exchange from time to time.

- E 1.9.3 No person serving on any Grading Panel or Appeal Panel shall, in the absence of bad faith or wilful default, be under any liability whatsoever whether in contract, in tort or otherwise to any Member or other person for any decision taken or other act or omission in respect of an application for grading.

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

E 1.10 Application for Grading or Re-grading

- E 1.10.1 An application for grading or re-grading, as the case may be, shall be made by a Nominated Member, via Guardian.
- E 1.10.2 A Member may apply to the Exchange for grading or re-grading, as the case may be, if, in respect of Cocoa, and subject to GWP E 2.1:
- (i) the Delivery Unit does not have a Valid Grading Result; or
 - (ii) the Delivery Unit does have a Valid Grading Result and the application for grading is made no earlier than the beginning of the calendar month immediately prior to the calendar month in which the Valid Grading Result expires;
- E 1.10.3 Irrespective of the usual validity period of a grading result for Cocoa which is the subject of an application for re-grading in accordance with GWP E.1.10.2 shall immediately lapse upon commencement of such re-grading.
- E 1.10.4 In respect of Cocoa, no application for re-grading of a Delivery Unit may be made where the Cocoa comprising the Delivery Unit has previously been graded as not tenderable.
- E 1.10.5 A Member may apply to the Exchange for grading of a lot or grouped lots of Robusta Coffee at any time, subject to GWP E 1.10.6.
- E 1.10.6 In respect of Robusta Coffee, no application for grading of a lot may be made where part or all of the Robusta Coffee comprising the lot has previously been graded.

E 1.11 Grading Process – General

- E 1.11.1 Upon receipt of one or more applications for the initial grading of Cocoa or Robusta Coffee, or the re-grading of Cocoa Goods pursuant to the relevant Contract Rules and these GWPs, or if otherwise required to do so under GWP E 1.7, the Exchange shall, at its absolute discretion, convene a Grading Panel or Appeal Panel, as the case may be. Such Grading Panel or Appeal Panel shall consist (subject to GWP E 1.6.2) of a minimum of:
- (a) three Cocoa Graders in respect of a Delivery Unit;
 - (b) three Robusta Coffee Graders in respect of a lot or grouped lots.
- E 1.11.2 In respect of each parcel, lot, grouped lots or Delivery Unit for which an application for grading is made, the Grading Panel shall examine the sample submitted and shall determine the grading result.
- E 1.11.3 Subject to GWP E 1.11.1, grading for Robusta Coffee will only commence once all the Graders selected to form a Grading Panel or Appeal Panel are present at the relevant Grading Station, and ready to commence.
- E 1.11.4 Prior to grading commencing, the Grading Panel will check that:
- (a) the seal(s) on the sample is/are in place and intact; and
 - (b) the sample does not weigh less than the weight prescribed in these GWPs for a sample from the relevant parcel lot or Delivery Unit.
- In addition, the Grading Panel may check that the tare weight of the sample bag does not exceed the weight prescribed in these GWPs for a sample from the relevant parcel, lot or Delivery Unit.
- E 1.11.5 If the details on a sample bag do not correspond to those on the relevant application for grading, an Exchange Official will advise the applicant Member. The applicant Member, or, if he is not the Owner of the Goods, the Owner on whose behalf the Member is making the application for grading, may

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

arrange for either the Warehousekeeper, or his appointed agent, to alter the details on the sample bag and initial and stamp the alteration.

- E 1.11.6 If in the opinion of an Exchange official, or the Grading Panel, the sample bag is insecure, incorrectly sealed, appears to have been tampered with or a sample weighs less than the correct weight prescribed for a sample from the relevant parcel, lot or Delivery Unit such sample shall not be graded. The applicant Member will be informed of such fact and they, or the Owner of the Goods may, instruct the Warehousekeeper to draw a fresh sample in accordance with the Regulations, including the relevant Contract Rules, and these GWP's and may then submit a new application for grading in respect of the relevant Goods.
- E 1.11.7 The original sample shall be held by the Exchange until either a fresh sample is received, or until sixty calendar days has elapsed, whichever is the sooner. At such time, the applicant Member may, subject to the agreement of the Exchange, arrange for the sample to be collected from the Grading Room. If, however, it is suspected that a sample has been tampered with then it will be held for further investigation by the Exchange.
- E 1.11.8 If the Grading Panel determine, in their absolute discretion, that the sample contents do not correspond with the details on the sample bag and the relevant application for grading, the Grading Panel shall immediately advise an Exchange Official. The Exchange Official shall consult with the Senior Grader of the relevant Grading Panel and determine the course of action that should be taken. If the Senior Grader and the an Exchange Official are unable, for whatever reason, to agree a course of action the matter shall be immediately referred to a senior Exchange Official who will determine what action shall be taken by the Exchange. The applicant Member will be informed of the course of action determined by the Exchange.
- E 1.11.9 Should at any time a Grading Panel discover live infestation in a sample, the grading of that sample will be discontinued and the sample contents will be returned to the sample bag which shall be sealed and marked as having live infestation. The presence of live infestation will be noted on Guardian and an Exchange Official will instruct the applicant Member to make arrangements for the sample to be removed within 24 hours. If the Member fails to remove the sample within 24 hours of notification, the Exchange may, at its absolute discretion, arrange for its disposal. Subject to GWP D 2.8.2 or 3.6.2, as the case may be, a Member may submit a new sample of the relevant parcel, lot or Delivery Unit for grading in accordance with GWP E 1.10.
- E 1.11.10 Where a lot comprises of two parcels and live infestation is discovered in the sample relating to one parcel only, then the Grading Panel shall continue to grade the sample in respect of the other parcel comprising such lot. The Exchange shall notify the applicant Member of the grading result in respect of the uninfested parcel by such means and in a form prescribed by the Exchange from time to time.
- E 1.11.11 Subject to GWP's D 2.8.2 or D 3.6.2, as the case may be, a Member may submit a new sample in accordance with GWP E 1.10, in respect of the parcel which is infested.
- E 1.11.12 Prior to leaving the Grading Room, the Senior Grader will ensure that all results relevant to the samples graded by the Grading Panel or Appeal Panel have been recorded on Guardian.
- E 1.11.13 Once grading of each sample is completed, the Exchange will re-seal such sample with the Exchange's seal. The applicant Member, or his appointed agent, will be contacted to arrange collection of the sample. Should the sample not be collected promptly, it shall become the property of the Exchange who may, at its absolute discretion, arrange for its storage or disposal.
- E 1.11.14 Following completion of grading, the Exchange shall in respect of:
- (a) Cocoa, notify the applicant Member and if so determined by the Exchange also notify the Warehousekeeper; or
 - (b) Robusta Coffee, notify the applicant Member and the Warehousekeeper;

of the grading result in respect of the Goods which are the subject of the application, by such means and in a form prescribed by the Exchange from time to time. If the Exchange notifies the Member of the

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

grading result via Guardian and the Member is unable to access such facility, or is prevented from accessing such facility due to its malfunction or failure, the Exchange may prescribe an alternative means and, if required, form in which the grading result will be provided to the Nominated Member.

E 1.11.15 In respect of Robusta Coffee, where a lot comprises of two parcels, the Valid Grading Result of such lot shall state the discounts applicable, if any, in respect of the inferior parcel. Where such parcel is graded as not tenderable then the whole lot comprising of both parcels shall not be tenderable.

E 2. COCOA

E 2.1 General

E 2.1.1 If a parcel or lot is graded by ICE Registered Cocoa Graders as not tenderable under the previous Cocoa contract rules (see E 2.1.2 below), a Member may submit such Cocoa as part or all of a Delivery Unit for re-grading under the Cocoa Contract Rules.

E 2.1.2 If a Delivery Unit is graded by ICE Registered Cocoa Graders as not tenderable under the Cocoa Contract Rules, a Member shall not submit such Delivery Unit for re-grading under the Cocoa Contract Rules, except in accordance with the following:

A Member may, on one occasion only, apply to the Exchange for re-grading of a Delivery Unit where a previous application resulted in the sample being graded as not tenderable. This GWP will only apply where both of the following conditions are satisfied:

- (a) where the original sample was graded as not tenderable under the terms of the revised Cocoa contract rules in the period from 1 November 1999 to and including 31 May 2001; and
- (b) where the reason, marked on the grading result, for the sample being graded as not tenderable was indicated to be "Residue".

Notwithstanding the above, the Exchange may, in its absolute discretion, require Members to provide it with such other documentary evidence as the Exchange considers necessary in order to satisfy the Exchange that the Member meets the requirements detailed above.

E 2.2 Grading Process

E 2.2.1 Residue and Foreign Matter Test

E 2.2.1.1 A member of the Grading Panel shall, having satisfied himself that all seals are intact, break the sample-seal(s) and shall sieve the entire sample, using a sieve with a square mesh of 6mm. The Residue and Foreign Matter falling through the sieve, as well as any Residue and Foreign Matter remaining in the sieve but identified by the Graders as being Residue or Foreign Matter, shall be weighed and such weight shall be recorded on Guardian.

A sample drawn from a Bulk Delivery Unit or Large Delivery Unit (i.e. 5 kg or 3 kg respectively), shall be sieved in two halves and the resulting weight of Residue (but excluding bean clusters) and Foreign Matter added together.

An allowance will be awarded against the weight of the Residue and Foreign Matter recorded on Guardian by reference to the relevant scale of Allowances for Residue and Foreign Matter where the quantity of Residue and Foreign Matter does not exceed:

- (a) in respect of all Origins other than Papua New Guinea:
 - (i) 75 grams for a sample drawn from a Standard Delivery Unit;
 - (ii) 113 grams for a sample drawn from a Large Delivery Unit; or

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

- (iii) 188 grams for a sample drawn from a Bulk Delivery Unit.

and

- (b) in respect of Papua New Guinea:
 - (i) 100 grams for a sample drawn from a Standard Delivery Unit;
 - (ii) 150 grams for a sample drawn from a Large Delivery Unit; or
 - (iii) 250 grams for a sample drawn from a Bulk Delivery Unit.

If the quantity of Residue and Foreign Matter marked on the grading sheet exceeds the applicable weight for the relevant Origin set out in (a) or (b) above, the sample shall be graded as not tenderable and the affected Delivery Unit cannot be delivered.

E 2.2.1.2

If, by looking at the contents of the sieve, the Graders are of the opinion that there are excessive bean clusters in the sample, the bean clusters identified in the sieve shall be weighed and an Allowance will be made if, in respect of a sample drawn from a:

- (a) Standard Delivery Unit, 52 grams or more in weight of bean clusters are identified;
- (b) Large Delivery Unit, 78 grams or more in weight of bean clusters are identified; or
- (c) Bulk Delivery Unit, 130 grams or more in weight of bean clusters are identified.

In each case, the resulting gross weight of bean clusters shall be recorded on Guardian.

For the purpose of calculating any Allowance for bean clusters, the gross weight stated on the grading sheet (if equal to or in excess of the applicable amount in (a), (b) or (c)) shall be reduced by 50% (and rounded down, if applicable, to the nearest whole gram). An Allowance in respect of the net weight shall be determined by reference to the relevant scale of Allowances for Residue and Foreign Matter entitled "Residue and Foreign Matter Allowances (all origins except Papua New Guinea)", irrespective of the Origin of the Cocoa in the sample.

In the event that the gross weight of bean clusters stated on the grading sheet is greater than:

- (d) 150 grams for a sample drawn from a Standard Delivery Unit;
- (e) 225 grams for a sample drawn from a Large Delivery Unit; or
- (f) 375 grams for a sample drawn from a Bulk Delivery Unit;

the sample shall be graded as not tenderable and the affected Delivery Unit cannot be delivered.

E 2.2.2

Standard Deviation of the Bean Count Test and Bean Count

E 2.2.2.1

This test is to be conducted on all Delivery Units in accordance with the provisions of the Cocoa Contract Rules and these GWPs:

- (a) the entire sample in respect of a Delivery Unit (i.e. 2 kg, 3 kg or 5 kg for Standard, Large or Bulk Delivery Units respectively) will be poured into a mixing container, hand mixed and passed through a sample divider. A representative sub-sample of 300 g ("300 g Sub-Sample") will be withdrawn from the Cocoa which passed through the sample divider. Any Residue or Foreign Matter remaining in the Sub-Sample will be removed, weighed and replaced with whole beans of an equivalent weight;
- (b) three sieves, with a round mesh of 13mm, 11.5mm and 10.5mm respectively, shall be assembled in descending mesh size order onto a base and placed on the sieving machine. The 300 g Sub-Sample shall be poured onto the upper sieve, and the sieves sealed;

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

- (c) the sieving machine shall be set to 180rpm, and operated for three minutes. After such time, the Cocoa beans retained on each sieve and in the base shall be counted and weighed separately. Any Cocoa beans remaining in the apertures of a sieve shall be deemed to be retained on such sieve. Any Cocoa beans which subsequently fall through the mesh when dismantling the sieve shall be added to the numbers of Cocoa beans from the sieve onto which they fall. The total weight of the Cocoa beans retained in each sieve and in the base shall be rounded down to the nearest 0.1 g.

In the event that any bean clusters are found on any of the sieves following the sieving process, they shall be removed, weighed down and replaced with whole beans of an equivalent weight and the sieving process shall be repeated; and

- (d) the information obtained in GWP E 2.2.2.1 (c) including the number of beans forming the 300g (the “bean count”) shall be recorded on Guardian

E 2.2.3 Bean Cut-test

E 2.2.3.1 For the purpose of determining the percentage of Defective and Slaty beans, a quantity of Cocoa beans must be cut open along their full length, creating two halves which clearly expose both cotyledons of the Cocoa bean for examination. Cocoa beans have to be cleanly cut through the widest section and shall not be cut whilst laying flat.

E 2.2.3.2 In respect of:

- (a) an application for grading, the number of Cocoa beans cut per sample will be as follows:
- (i) in respect of a sample drawn from a Standard or Large Delivery Unit, a minimum of 300 Cocoa beans will be cut; and
 - (ii) in respect of a sample drawn from a Bulk Delivery Unit, a minimum of 500 Cocoa beans will be cut, or
- (b) a grading appeal, the number of Cocoa beans cut per sample will be as follows:
- (i) in respect of a sample drawn from a Standard or Large Delivery Unit, a minimum of 450 Cocoa beans will be cut; and
 - (ii) in respect of a sample drawn from a Bulk Delivery Unit, a minimum of 750 Cocoa beans will be cut.

E 2.2.3.3 The number of Defective and Slaty Cocoa beans shall be recorded on Guardian.

E 2.2.4 Smoky/Hammy/Unsound Cocoa

E 2.2.4.1 Cocoa which is considered by the Grading or Appeal Panel:

- (a) to have a smoky, hammy or other taint or smell;
- (b) to contain a substance not inherent to Cocoa; or
- (c) to be unsound,

will be graded as not tenderable and the grading sheet noted on Guardian accordingly. Any such beans that have been cut shall not be returned to the sample bag with the rest of the contents.

E 2.2.5 Cocoa graded as not tenderable

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

E 2.2.5.1 If, during the course of grading, a sample is found not to conform to the contract requirements in any category, such sample shall be graded as not tenderable and grading of the sample shall cease.

E 2.2.5.2 Delivery Unit which has been graded as not tenderable will be noted as such on Guardian, and the Guardian record shall specify under which category the sample has failed. In respect of gradings conducted pursuant to the Cocoa Contract Rules and these GWPs, it shall be noted on Guardian at which stage of the grading process for that particular category the Delivery Unit became not tenderable.

E 3. Robusta Coffee

E 3.1 General

E 3.1.1 In accordance with Rule GGGG.4 the following grading procedures shall apply, such that they do not conflict with GWP E 1.11.

E 3.2 Grading Procedure

E 3.2.1 Samples representing parcels, single lots or grouped lots

The Grading Panel shall satisfy themselves that the samples presented are identified as either:

- (a) each representing a single parcel or lot and are not presented as being connected to any other parcels or lots; or
- (b) are presented as being grouped lots.

Those samples submitted as not representing grouped lots shall follow the GWP E 3.2.2 and 3.2.4 to 3.2.7. Those samples submitted representing grouped lots shall follow GWP E 3.2.3 and 3.2.4 to 3.2.7.

E 3.2.2 Sample preparation for a single lot

E 3.2.2.1 A member of the Grading Panel shall check that the sample complies with GWP E 1.11.

E 3.2.2.2 If so, a member of the Grading Panel shall then break the sample-seal(s) and empty the entire contents of the grading sample into a tray and thoroughly mix the grading sample by hand.

E 3.2.2.3 A laboratory sample shall then be prepared by use of a flat-bottomed scoop to remove a quantity of beans weighing not less than 300g from the grading sample which shall be placed in a clean and odourless container. The net weight of the laboratory sample shall be recorded on Guardian.

E 3.2.3 Sample preparation for grouped lots

E 3.2.3.1 A member of the Grading Panel shall check that all the samples presented for grading as grouped lots comply with GWP E 1.11.

E 3.2.3.2 If so, a member of the Grading Panel shall then break the sample-seals and empty the entire contents of each grading sample into separate trays and thoroughly mix each one separately by hand.

E 3.2.3.3 The Grading Panel will then visually examine the general appearance of each grading sample and be satisfied that all are homogenous in overall uniformity with each other. If the Grading Panel does not agree that the samples are homogenous then the samples shall be graded as individual lots and shall follow GWP E 3.2.2.

E 3.2.3.4 If agreed that each sample is visually homogenous with the others, a member of the Grading Panel shall mix the grading samples together and quarter the resulting mixed grading samples such that the resulting quartered material is approximately 1.5 kg.

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

E 3.2.3.5 A laboratory sample shall then be prepared by use of a flat-bottomed scoop to remove a quantity of beans weighing not less than 300g from the 1.5 kg grading sample described in 3.2.3.4 above which shall be placed in a clean and odourless container. The net weight of the laboratory sample shall then be recorded on Guardian.

E 3.2.4 Olfactory test

E 3.2.4.1 A member of the Grading Panel shall bring his nose close to the whole of a laboratory sample and sniff sharply. If any abnormal odour is detected then this is to be corroborated by the other members of the Grading Panel.

E 3.2.4.2 In doubtful cases, if there is a suspicion of an abnormal odour, a clean, odourless container shall be half-filled with coffee from the laboratory sample, closed hermetically, and kept for a minimum of one hour at room temperature. The container shall be opened and the evaluation of the odour repeated.

E 3.2.4.3 The result shall be recorded if the sample is graded not being free of foreign odour and the single lot or grouped lots shall be non-tenderable.

E 3.2.5 Visual examination

E 3.2.5.1 A laboratory sample shall be spread over a plain black surface under diffuse daylight or artificial light reproducing daylight as closely as possible and the sample inspected to confirm that the botanical origin of the beans in the sample conform with the contract specification, failing which the single lot or grouped lots shall be non-tenderable.

E 3.2.6 Screen Test

E 3.2.6.1 A laboratory sample shall be weighed, the weight recorded, and the sample material poured into the nest of sieves sized 15, 14, 13 and 12, the lid placed on top and the receiver placed under the sieve with the smallest aperture.

E 3.2.6.2 The sieves shall be agitated with a slight corner-to-corner tilting action and with slight vertical shaking until no further beans move from one screen to the next, or a process which gives equivalent results. At the end of this operation, a sharp knock should be given to the nest of sieves in order that beans only loosely held in apertures will fall through. The oversize collected on each of the sieves used shall be weighed to the nearest 1g, and, if applicable, the undersize collected in the receiver. Beans remaining in apertures shall be considered to be retained on the sieve in question. The weights for each screen shall be recorded.

E 3.2.7 Determination of Foreign Matter and Defects

E 3.2.7.1 A laboratory sample shall be weighed and the weight recorded. The laboratory sample shall be examined for foreign matter and Defects pursuant to Rules GGGG.4(d) and (e). Any such material so identified shall be separated and the aggregate in both categories shall each be weighed to the nearest 1g and the results compared to the weight of the laboratory sample.

E 3.3 Standards

E 3.3.1 Lots which are graded shall be deemed as tenderable subject to meeting the requirements as set out in Rule GGGG.4(c)(ii).

E 3.3.2 Grading results from samples that have been derived from grouped lots shall apply to each individual lot making up the grouped lots.

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

SECTION F: WARRANT MANAGEMENT SERVICE

F 1. Introduction

- F 1.1 The Warrant Management Service is offered by the Exchange through the Guardian system. The Warrant Management Service caters for Cocoa and Robusta Coffee Warrants. It allows for transfer of ownership from seller to buyer via the Clearing House in a tender cycle or between seller and buyer in the event of a physical sale/purchase provided that Warrants have been issued and lodged with a Depository and recorded on Guardian by a Depository as having been immobilised.
- F 1.2 Only Warehousekeepers may issue Warrants. A Warehousekeeper must issue and print a Warrant prior to the initial grading of the Goods to which that Warrant relates.
- F 1.3 Where there are differences in respect of the details as to weight, and/or Rent, and/or the ICE Futures Warehouse reference between the Warrant and the details recorded on Guardian, the details on Guardian will be correct.
- F 1.4 Warrants in respect of Goods which are to be delivered under the ICE Futures London Cocoa Futures Contract or the ICE Futures Robusta Coffee Futures Contract must be immobilised.
- F 1.5 A Warehousekeeper shall maintain on Guardian an accurate copy of the Terms and Conditions to which Warrants issued by him are subject.
- F 1.6 A Nominated Member shall maintain details of the Owner on Guardian.
- F 1.7 The Warrant Management Service is only available to:
- (a) Clearing Members;
 - (b) Warehousekeepers;
 - (d) the Exchange; and
 - (e) Depositories.

F 2. Legal Rules

- F 2.1 These rules as described in this section F 2 (the “rules”) set out the rights and obligations of Owners, Nominated Members and Warehousekeepers in respect of Warrants which have been immobilised in accordance with F 3.4.
- F 2.2 These rules create rights and obligations legally enforceable by any Participant against any other Participant.

F 2.3 Definitions

- F 2.3.1 In these rules:

“Participant” means a Nominated Member and a Warehousekeeper.

“Specified Third Party” means, in relation to a Nominated Member, an associate, and any person who is or was a Client of the Nominated Member.

“Client” of a Nominated Member means, in the context of these rules, an Owner or former Owner for whose Warrants the Nominated Member has at any time accepted nomination.

F 2.4 Status of Owners

GRADING AND WAREHOUSEKEEPING PROCEDURES IN RESPECT OF THE ICE FUTURES LONDON COCOA FUTURES CONTRACTS AND ICE FUTURES ROBUSTA COFFEE FUTURES CONTRACTS

F 2.4.1 In respect of a Warrant that has been immobilised, a person whose name is recorded on Guardian as the “Owner” in relation to the Goods is the person entitled, as against each Participant, to possession of a Warrant in respect of those Goods.

F 2.4.2 If a Nominated Member becomes subject to an event of default under Section D of the Regulations or the Clearing House Rules, the Clearing House may direct the Exchange to instruct another Clearing Member to act as Nominated Member in respect of some or all of the Warrants which have been immobilised for which the relevant Nominated Member has been nominated on Guardian.

F 2.5 Immobilisation of Warrants

F 2.5.1 Effect of immobilisation of Warrants

F 2.5.1.1 The Depository holds a Warrant that has been immobilised as bailee to the order of the Nominated Member against whose name the Warrant is recorded on Guardian. The Depository is obliged to deliver up the Warrant to the Nominated Member or to its order. The Nominated Member holds its rights in respect of a Warrant that has been immobilised as bailee for the relevant Owner, and shall act promptly on any instructions of the Owner (including in particular instructions to obtain delivery of the Warrant from the Depository).

F 2.5.1.2 No Participant may assert any right or interest, or take any action, against any other person (including in particular any Owner) which is inconsistent with F 2.5.1.1 above except insofar as that Participant has a better entitlement to possession to the relevant Goods, and that right is consistent with the content and intention of these rules.

F 2.5.1.3 Each Nominated Member shall procure that no Specified Third Party will assert any right or interest, or take any action, against any other person which is inconsistent with these rules and shall include a provision to this effect in its terms of business with clients who are or may become Clients.

F 2.5.1.4 Whenever a Warrant is immobilised, the Nominated Member (as agent for the relevant Owner) at the time of immobilisation guarantees to each Participant that it has not created or permitted to subsist in relation to the Warrant any charge, encumbrance or other right which would impair the full enjoyment of that Warrant, and that none of the Nominated Member, the relevant Owner, or any person claiming through or under them will disturb the quiet possession of the Warrant by any subsequent Owner.

F 2.5.1.5 The Exchange may require the Depository to effect such endorsements to Warrants in the Depository’s possession as are appropriate in order to enable the effective transfer of ownership to the Owner recorded for the time being on Guardian. Each Nominated Member shall include a provision in its terms of business with clients who are or may become Clients authorising the Exchange and the Depository to take such action as is mentioned in this rule on their behalf.

F 2.6 Transfers

F 2.6.1 A change of Owner on Guardian amounts to a transfer of entitlement to possession of the relevant Goods. Where the Owner is changed in respect of a Warrant that has been immobilised, the registration of the name of the new Owner on Guardian constitutes and shall have the same effect as:

- (a) in respect of the relevant Goods, an assignment to the new Owner of all rights (including in particular a claim to delivery up of the relevant Commodity Unit) against the Warehousekeeper, and an attornment in favour of the new Owner by the Warehousekeeper; and
- (b) in respect of a Warrant that has been immobilised, an attornment in respect of the Warrant itself in favour of the new Owner by the Nominated Member.

F 2.6.2 Where the Nominated Member is changed in respect of a Warrant that has been immobilised, the acceptance of nomination by the new Nominated Member constitutes an instruction by the previous Nominated Member and the new Nominated Member to the Depository to hold the Warrant to the order of the new Nominated Member. The Depository agrees that the registration of a Warrant that has been

immobilised under the name of the new Nominated Member constitutes and shall have the same effect as an attornment by the Depository in favour of that Nominated Member.

F 2.6.3 In respect of each Warrant that has been immobilised, the Nominated Member (acting for itself and as agent for the Owner) authorises the Exchange to transfer the right to have the Warrant delivered by means of changes to records on Guardian.

F 2.6.4 In the event of a default during the settlement of an Exchange Contract, the Exchange may take any step to ensure that the Guardian record reflects that the Owner in respect of a Warrant is the Clearing House, where delivery ought to have been made to the Clearing House and no onward delivery ought to be made to another person.

F 2.7 General legal rights

F 2.7.1 Each Participant agrees to indemnify and hold harmless each other Participant in respect of any costs, claims, or loss occasioned by breach of these rules by the first Participant. The liability of a Participant under this rule shall be limited to the value, at the time of the breach, of the relevant Goods.

F 2.7.2 Nothing in these rules affects the covenants for title incorporated expressly or by operation of law into a contract for the sale of goods.

F 2.7.3 Pursuant to the Contracts (Rights of Third Parties) Act 1999, these rules confer rights enforceable by a Specified Owner against its relevant Nominated Member, and rights enforceable by a Participant against another Participant pursuant to GWP F 2.7.1. These rules may, however, be amended in any way without the consent of any Owner. Subject to the above provisions of this GWK, no person who is not a Participant, the Exchange or the Clearing House has rights under the Contracts (Rights of Third Parties) Act 1999 under these rules.

F 2.7.4 These rules shall prevail in the event of inconsistency between these rules and any terms and conditions: (a) applicable between a Nominated Member and its Client; or (b) applicable between a Warehousekeeper and any Owner, Nominated Member or customer of the Warehousekeeper by virtue of custom and usage, operation of law, or inclusion in or on a Warrant.

F 2.7.5 Neither the Exchange nor any Participant gives any undertaking, covenant or warranty to any person as to the effect of these rules as regards title to any Warrant or Goods. The use of the word "Owner" does not constitute a guarantee by the Exchange that any Warrant or Goods exists or that the person recorded as such on Guardian has any property interest in any Warrant or Goods.

F 2.7.6 Without prejudice to any limitation of liability applicable by virtue of the Exchange's Regulations, procedures or any other agreement between the Exchange and any Participant or the Clearing House Rules, none of the Exchange, the Clearing House, their directors or agents shall be liable to any Participant or other person for any loss, damages, costs, expenses or other liability of whatever nature (each a "Loss") relating to the operation of these rules or the performance or non-performance of any person under these rules, including where such Loss arises from negligence. The Exchange has no obligation to any person to ensure the accuracy or availability of any information recorded on Guardian; or to safeguard rights of any person entitled to a Warrant which has been immobilised or claiming as Owner; or as to the legal consequences of these rules in any jurisdiction. However, nothing in these rules excludes liability for fraud, wilful default or for personal injury or death caused by negligence.

F 3.2 Initial Nomination of a Clearing Member

F 3.2.1 A Warehousekeeper may create Commodity Units, take samples and give sampling notification through the Guardian system without the need to nominate a Clearing Member. A Clearing Member must be nominated by the Warehousekeeper on behalf of the Owner before a Warrant may be immobilised, or an application for grading made within Guardian.

F.3.2.2 Where there is no Nominated Member, an Owner may at any time instruct the Warehousekeeper to request the appointment of a Clearing Member as a Nominated Member. If an Owner does so, it shall provide the Warehousekeeper with the name and the ICE mnemonic of the Clearing Member. The Warehousekeeper shall post a request, which includes the Owner's name, on Guardian for the Nominated Member to confirm that it accepts the nomination.

F 3.2.3 A Warrant may only be tendered under a Contract if it has been immobilised.

F 3.3 Re-Print of a Missing Warrant

F 3.3.1 In the event of a Warehousekeeper being advised that a Warrant has been defaced, lost or destroyed, then all the requirements contained in the Terms and Conditions of the Warrant recorded on Guardian shall be fulfilled before a new Warrant may be issued by the Warehousekeeper. The Warehousekeeper shall ensure that it is recorded on Guardian that the original Warrant has been cancelled and is invalid and that the new Warrant has been issued in respect of the relevant Goods.

F 3.4 Immobilising a Warrant

F 3.4.1 When Goods are graded as tenderable, the Owner should make arrangements for the relevant Warrants to be lodged with the Depository at the earliest opportunity. A Warrant may only be immobilised on the instructions of a Nominated Member on behalf of the Owner. The Nominated Member shall request immobilisation by a Depository of the Warrant in Guardian. The Warrant must then be lodged with a Depository by the Nominated Member. Upon acceptance of the Warrant, the Depository shall record the Warrant as immobilised on Guardian. It is only at the point of registration of the Warrant being immobilised by the Depository that the Warrant will be in a form which is capable of being tendered.

F 3.4.2 Procedures for the immobilisation of Warrants

F 3.4.2.1 The lodgement or withdrawal of a Warrant at the Depository shall be by appointment only. The Nominated Member must give a minimum of one business day's notice by contacting the Depository using the contact details provided by the Exchange by notice posted on the Market from time to time.

F 3.4.2.2 The Exchange will publish the address of the Depository, the opening hours of the Depository and the relevant contact details on the ICE website (www.theice.com).

F 3.4.2.3 Appointments will be granted at the discretion of the Depository. Only in exceptional circumstances will appointments be accepted with less than one business day's notice and these will be dealt with on a best efforts basis.

F 3.4.2.4 When making an appointment, the Nominated Member must provide the Depository with the following information:

- (a) the time and date on which the Nominated Member wishes to make the lodgement or withdrawal;
- (b) the name of the person or company details of the courier company who will attend the Depository;

- (d) in the case of a withdrawal, subject to F 3.4.2.20, the number of Warrants to be withdrawn and the number of withdrawal requests covering these Warrants.

F 3.4.2.5 The Nominated Member should not initiate the lodgement or withdrawal process on Guardian until an appointment has been confirmed by the Depository.

F 3.4.2.6 Persons attending the Depository should be in possession of identification sufficient enough to satisfy the security requirements of the Depository. Details of these requirements will be issued by the Depository from time to time and will be published on the ICE website (www.theice.com).

F 3.4.2.7 In the event that the Nominated Member cannot attend the Depository at the appointed time, the Depository should be informed immediately and a revised appointment made.

F 3.4.2.8 Subject to F 3.4.2.22, in the event that the Nominated Member wishes to cancel an appointment the Depository should be informed immediately. The Nominated Member must cancel the relevant Lodgement or withdrawal request on Guardian.

Lodgement of Warrants at the Depository

F 3.4.2.9 In order for a Warrant to be lodged with the Depository it must be:

- (a) issued by a Warehousekeeper for Goods;
- (b) issued as a Warrant by the Warehousekeeper and recorded on Guardian; and
- (c) printed on secure paper with a clearly printed bar code and depository number.

F 3.4.2.10 A Warrant will not be accepted for lodgement at the Depository unless it is accompanied by the relevant Lodgement Request Form.

F 3.4.2.11 The Lodgement Request Form must be clearly printed and contain a readable bar code.

F 3.4.2.12 A single Lodgement Request Form may include up to a maximum of 200 Warrants. A single Lodgement Request Form in respect of multiple Warrants may only be provided for Warrants issued in respect of the same commodity stored by the same Warehousekeeper in the same port or Delivery Area.

F 3.4.2.13 At the discretion of the Depository, a depository appointment may be for the presentation of more than one Lodgement Request Form.

F 3.4.2.14 Warrants presented at the Depository for lodgement should be presented with the relevant Lodgement Request Form and should be in numerical order by depository number and ordered so that the bar code of each Warrant is positioned directly above the one below. Subject to F 3.4.2.13 where there is more than one Lodgement Request Form the Warrants for each request should be separated.

F 3.4.2.15 Where there is any discrepancy between the Lodgement Request Form and the Warrants accompanying it or the Warrants are not presented in accordance with these GWPs, the Depository may refuse to accept all of the Warrants covered by that request.

F 3.4.2.16 On completion of the lodgement process, the Depository will issue a Lodgement Statement to the person attending the Depository.

Withdrawal of Warrants from the Depository

F 3.4.2.17 A Warrant may not be withdrawn from the Depository unless the Depository is presented with a Withdrawal Request Form produced by Guardian.

- F 3.4.2.22 A Withdrawal Request Form cannot be cancelled by the Nominated Member if the Depository has initiated the withdrawal process. This will be evident where the status "Packing" for the Withdrawal Request Form is recorded on Guardian.

F 4. Change of Ownership

- F 4.1 Warrants which are registered as immobilised on Guardian are required to identify the Owner.
- F 4.2 The Nominated Member is required to amend the name of the Owner when title to the Warrant changes, either through the tender process or by a physical sale/purchase.
