The Buyer and the Seller acknowledge that, subject to Rules 7H1.12(f) any disputes relating to the Daily UK Carbon Emissions Allowance Contract shall be determined in accordance with the arbitration provisions in the Rules.

7H1.14 FORCE MAJEURE

- (a) If the Scheme is, as a result of official written public pronouncement by any relevant Governmental Authority, to be discontinued, or is significantly amended in a manner which prevents the performance of delivery pursuant to Rule 7H1.6, the Clearing House shall take whatever steps it considers reasonable in its absolute discretion, taking into account any information it considers to be relevant for this purpose. If the Clearing House decided to invoice back any open contract in accordance with the Clearing House procedures, it will do so at a price to be fixed by the Exchange or a body appointed by the Exchange, in its absolute discretion. Such price shall be binding on the parties and no dispute as to such price may be referred to arbitration under the Arbitration Rules. In such case, neither the Buyer, Clearing House, nor the Seller shall have any further delivery, Transfer or payment obligations under or in respect of the open UK Carbon Emissions Allowance Contract.
- (b) Subject to Rule 7H1.14(e), a Seller who is party to a Daily UK Carbon Emissions Allowance Contract shall not be liable in respect of any failure on its part to submit a Transfer Request in relation to any Daily UK Carbon Emissions Allowance Contract, any rejection/non acceptance of a Transfer Request or subsequent failure in the credit of UK Carbon Emissions Allowances to the Buyer's Nominated Holding Account, nor shall a Buyer be liable in respect of any failure on its part to ensure the credit to its Nominated Holding Account of all UK Carbon Emissions Allowances under a Daily UK Carbon Emissions Allowance Contract if performance of such obligations is prevented by Force Majeure. In such case neither party shall be held to be in default under the Daily UK Carbon Emissions Allowance Contract and no payment shall be made under Rules 7H1.8 or 7H1.12.
- (c) Force Majeure shall, in relation to the Buyer or the Seller as the case may be, mean the occurrence of any event (except as provided otherwise in Rule 7H1.14(e)), which is outside the reasonable control of such party, and which prevents the debiting and crediting of the Buyer's or Seller's Nominated Holding Accounts at the Registry so that a Transfer cannot be effected during the Delivery Period, or results in an amount other than the UK Carbon Emissions Allowance Delivery Amount being credited and debited. Without limitation to the foregoing, an event of Force Majeure shall include:
 - (i) a public statement by an appropriate Governmental Authority, Registry Administrator, GG ETS Regulator or by the Registry, of an occurrence of an event outside the reasonable control of the Registry so as to prevent a Transfer taking place during that Delivery Period, and which is endorsed by the Exchange as a declaration of Force Majeure;
 - (ii) subject to Rule 7H1.14(e)(iv), the Registry suspending the submission of Transfer Requests or the effecting of Transfers under the Registry Regulations or otherwise;
 - (iv) for the relevant Delivery Period, the inability to make or accept a Transfer due to an interruption in, delay to or permanent halting of a Transfer resulting from the intervention of the UK Transition Log in relation to the Registry.
- (d) Where a Force Majeure event has arisen in relation to one or more Daily UK Carbon Emissions Allowance Contracts to which the Clearing House is party as Buyer which prevents the Transfer of Carbon Emission Allowances or performance of other obligations, the Clearing House shall use the Random Selection Mechanism to identify and subsequently notify the relevant Buyers to which the Clearing House is party as Seller, that the Clearing House has declared a Force Majeure event in relation to such Daily UK Carbon Emissions Allowance Contracts in accordance with these ICE Futures UKA Daily Futures Contract Rules, and/or the Regulations and/or the Clearing House Rules and/or the Clearing House procedures.
- (e) Subject to Rules 7H1.14(a) and 7H1.14(c), the occurrence of the following events (without limitation) shall not give rise to Force Majeure:
 - (i) the refusal or rejection by a Registry, the Registry Administrator, the GG ETS Regulator or the UK Transaction Log if appropriate, for whatever reason, of a Transfer Request submitted by the Seller.
 - (ii) the inability to make a Transfer owing to a problem within the central systems or processes established under the Scheme for the receipt and acceptance of Transfer Requests, but only to the extent that contingency arrangements exist under the Scheme by which the Seller or the Buyer can reasonably be expected to make or accept the Transfer (as the case may be) in accordance with any Clearing House Direction;

- (iii) an insufficient amount of UK Carbon Emission Allowances in the Seller's Nominated Holding Account to enable the Seller to effect the Transfer, whether caused by non-allocation or low allocation of UK Carbon Emissions Allowances or for any other reason;
 - (iv) the inability to make or accept a Transfer at the Registry, due to an interruption in, delay to or permanent halting of a Transfer resulting from the UK Transaction Log.
- (f) A Seller or a Buyer (other than the Clearing House) who is party to a Daily UK Carbon Emissions Allowance Contract shall not be entitled to relief through the occurrence of an event of Force Majeure under this Rule 7H1.14 unless such party has notified the Clearing House and the Exchange, or in the case of the Clearing House, the Clearing House shall not be entitled to relief through the occurrence of an event of Force Majeure under this Rule 7H1.14 unless the Clearing House has notified the other party and the Exchange, as soon as reasonably practicable after such party or the Clearing House as the case may be, has become aware (or after it ought reasonably to have become aware) of such Force Majeure event, and has continued to seek to perform its obligations in accordance with the Daily UK Carbon Emissions Allowance Contract (in which event it shall be entitled to such relief with effect from the commencement of such Force Majeure event).
- (g) Upon request by the Clearing House and/or the Exchange, a party seeking Force Majeure relief under this Rule 7H1.14 shall provide all information required by the Clearing House and/or the Exchange as soon as practicable to assist the Exchange in determining whether an event of Force Majeure has occurred. Whether an event of Force Majeure has occurred shall be determined by the Exchange. Where the Clearing House is not the party seeking relief through the occurrence of an event of Force Majeure, the Exchange shall consult a representative of the Clearing House in its determination.
- (h) If Force Majeure prevents the affected party from performing its obligations under a Daily UK Carbon Emissions Allowance Contract, the Clearing House shall take whatever steps it considers reasonable in its absolute discretion, taking into account any information it considers to be relevant for this purpose. If the Clearing House decides to invoice back the relevant Contract(s), it will do so in accordance with the Clearing House procedures, at a price to be fixed by the Exchange, or a body appointed by the Exchange, in the Exchange's absolute discretion. Such price shall be binding on the parties and no dispute as to such price may be referred to arbitration but completion of invoicing back shall be without prejudice to the right of either party to refer the question of the existence, extent or duration of the Force Majeure or any default or related dispute to arbitration under the Arbitration Rules.
