New Daily Maintenance Window Spot Markets

The daily maintenance window for the ICE Endex gas spot markets will move to 04:40-05:00 CET (03:40-04:00 GMT) as per Friday 20 March 2015.

	Start time	End time
Current	23:45 CET / 22:45 GMT	00:00 CET / 23:00 GMT
New	04:40 CET / 03:40 GMT	05:00 CET / 04:00 GMT

On Friday 20 March 2015 maintenance windows will take place both at 23:45-00:00 (CET) as well as on Saturday 21 March 2015 at 04:40-05:00 (CET).

Thereafter the maintenance windows will occur 5 times per week from Tuesday to Saturday from 04:40 (CET) to 05:00 (CET). During the maintenance window the gas spot markets are closed.

Order behaviour

- Unfilled active orders on ICE Endex spot markets (TTF, ZTP, OCMⁱ) that are open (or close) during the maintenance window are inactivated (put on hold).
- Unfilled active orders that have been selected for Good-After-Logout (GAL) before the start of the maintenance window will stay active thereafter.
- Unfilled active orders on the OCM are withdrawn (killed) when the market for the current gas day closes at 03:35 GMT.

ⁱ The new maintenance window and order behavior will not apply to the UK OCM until 1 April 2015.
