Accountability Levels for Certain Financial Power Contracts**

On May 11, 2015, ICE Futures U.S. (“IFUS” or “Exchange”) filed [Submission No. 15-101](#) with the Commodity Futures Trading Commission (“Commission”) to increase spot month position limits and single and all-month combined accountability levels for eight financial power futures contracts. The effective date for the increases was May 27, 2015.

The Commission determined to stay the filing for 90 days commencing on May 26, 2015, pursuant to Section 5c(c)(2) of the Commodity Exchange Act and §§ 40.6(c)(1) and 40.7(a)(3) of the Commission’s regulations thereunder. During the 90-day review period, the Commission will provide a 30-day public comment period, a notice of which will be published on the Commission’s website. Members of the public who wish to comment on IFUS’ Submission No. 15-101 are encouraged to voice their opinions via written comment during the 30-day comment period.

During the review period, the Exchange will continue to hold participants to the previous effective spot month position limits and single and all-month combined accountability levels. These levels can be found below and at the following link: [Energy Position Limit, Accountability and Reportable Levels](#).

Resolution No. 2 – Position Limit/Accountability Table

Rule	Contract Name	Commodity Code	Contract Size	Unit of Trading	Spot Month Limit	Single Month Accountability Level	All Month Accountability Level	Aggregate 1 (Positive Correlation)	Aggregate 2 (Negative Correlation)	Exchange Reportable Level
