

New: Order Origination Field

Growing volumes on ICE mobile have spurred customer requests for a Source field now available in WebICE and Deal Reports. The Source field offers risk managers and traders enhanced risk controls by tracking where each order was originated as shown below.

My Orders View in ICE mobile

Trades placed via ICE mobile are shown in the My Orders tab.

- Once an order is entered via ICE mobile, the term Mobile instantly appears in the Source field, indicating how the order was entered.
- Users must manually add the Source field by right clicking on the Orders/Deals tab and selecting Edit Columns. Check the box next to Source on the Set Up screen and click Apply.
- The Source field automatically appears as the last column in WebICE and Deal Reports.
- In WebICE the Source field can then be sorted by order origin

Free for WebICE Users:

ICE mobile is a value-added feature of WebICE, offering 3 levels of access:

- For View Only access to view real-time ICE Futures and OTC prices, just download and enter your existing WebICE account information.
- For Trading or View/Cancel Orders access, your company ICE Admin must begin the approval process by emailing desired permission levels to iceuseradministration@theice.com.
