

LIFFE GENERAL NOTICE NO: 2624

ISSUE DATE: 15 March 2005

EFFECTIVE: 15 March 2005

**EURO SWAPNOTE® CONTRACTS
(EXCHANGE CONTRACT NO. 701S)**

**U.S. DOLLAR SWAPNOTE® CONTRACTS
(EXCHANGE CONTRACT NO. 710)**

LISTS OF NOTIONAL CASHFLOWS FOR THE SEPTEMBER 2005 DELIVERY MONTH

Executive Summary

This General Notice defines the notional cashflows for Two Year, Five Year and Ten Year Euro Swapnote® Contracts and Two Year, Five Year and Ten Year U.S. Dollar Swapnote® Contracts for the September 2005 delivery month.

1. In accordance with term 3.01 of the contract terms for Exchange Contracts No. 701S and No. 710, the Exchange is required to publish, in respect of new delivery months of the Swapnote® Contracts, "Lists of Notional Cashflows" detailing the notional fixed rates, the notional principal (together referred to as the "notional cashflows") and payment dates and day count fractions in respect of the notional cashflows.
2. The List of Notional Cashflows for the September 2005 delivery month of the Two Year, Five Year and Ten Year Euro Swapnote® Contracts forms Attachment 1 to this LIFFE General Notice, while the equivalent List for the U.S. Dollar Swapnote® Contracts forms Attachment 2 to this LIFFE General Notice.
3. In accordance with the algorithm detailed in the contract terms, the dates of the notional cashflows are adjusted for days which are not Target business days (with respect to Euro Swapnote®) and which are not business days in both London and New York (with respect to U.S. Dollar Swapnote®) and the size of each notional fixed rate is adjusted to account for any additional or reduced daily accrual (N.B. the payment date is thus also adjusted, but the size of the notional principal remains unchanged). This procedure is in accordance with the swap market "modified following" business convention.
4. Members seeking further information in relation to this General Notice should contact Interest Rate Product Management (+ 44 (0) 20 7379 2222) at Euronext.liffe.

¹ All notional cashflow dates are adjusted for days which are not Target business days.

² The day-count fraction represents the number of years from the previous notional cashflow date (or delivery day where appropriate) to the specified notional cashflow date, calculated on a 30/360 day count basis. The fraction is rounded to eight decimal places prior to being used in calculations, and ensures that if a notional cashflow date is deferred in order to accommodate a non-Target business day, the appropriate notional coupons are increased/decreased by the appropriate daily coupon accrual.

³ The day-count fraction is rounded to eight decimal places and is then multiplied by the notional coupon to give the notional cashflow. This is not rounded when establishing the Exchange Delivery Settlement Price ("EDSP"). For convenience, each notional cashflow quoted above is rounded to eight decimal places, albeit that this rounded number would not be used to calculate the EDSP.
